

AUTOMOTIVE SUBJECT GUIDE

BOOKS

Books are classified using the Dewey Decimal Classification system making it easier for us to organise related subjects together on the shelves. This in turn makes it easier for you to find the book you need.

Not all books relevant to your course will be located in just one area, so you may have to look around the library to find what you need.

Below is a selection of class numbers that will be of relevance to you:

Motor vehicles	629.2
Racing cars	629.228
Fuel systems	629.253
Vehicle electronic systems	629.2549
Motor vehicle bodies	629.26
Driving	629.283
Vehicle maintenance & repairs	629.287
